About Me

I am a Junior Frontend Developer with experience in building responsive and modern websites. I work with HTML, CSS, JavaScript and basic frontend frameworks. I am motivated to improve my JavaScript skills, learn APIs and grow as a frontend developer.

Projects

- **Landing Page**
Responsive landing page built with HTML, CSS and JavaScript.
[Live demo](#)
- **Client Website**
Website developed based on real client requirements.
[Live demo](#)
- **Personal Portfolio Website**
Personal portfolio with projects and interactive UI.
[Live demo](#)

Education

Self-education in Frontend Development
Online courses and practice projects

Currently Learning

Deepening JavaScript knowledge, working with APIs and planning to learn React. Looking for a Junior Frontend Developer position to gain commercial experience and grow in a professional team.
